

Harry B. Lewis Vice Chairman Of Harbor District Boy Scouts

Harry B. Lewis, executive secretary of the Torrance Chamber of Commerce, was unanimously elected vice chairman of the Harbor District Executive Scout committee last week in San Pedro. It was announced yesterday by Hillman R. Lee, district chairman.

Charles F. Crawford, chairman of the Harbor District camping and activities committee and a resident of San Pedro, placed the name of Mr. Lewis in nomination, which was seconded by Dr. Charles A. Pierce of Gardena.

Mr. Lewis was a Boy Scout leader in Liverpool, England, from 1915 to 1919 and has been active in youth work in the United States as case work supervisor for Texas Transient Bureau for Boys, superintendent in California for S.E.R.A. Camp Waybur, and assistant superintendent at Camp St. Johnsville, New York.

Representatives from Torrance, Gardena, Lomita, San Pedro and Wilmington were in attendance at the meeting to elect Lewis to a post on the executive board.

The committee approved a systematic procedure for advancements throughout the Harbor District, which was presented for approval by Albert Iton, acting chairman of the advancement committee.

HARRY B. LEWIS

Fifteen Hundred Service Men Used Torrance U.S.O.

One thousand five hundred service men have registered at the Torrance U.S.O. since its opening. At present the attendance is below normal due to the fact that approximately 500 soldiers are away on leave from the various camps and bases.

The women who manage the different departments and who work endlessly to make the Torrance U.S.O. the smooth running unit that it is known to be, report that donations of food and other needs are coming in nicely and while they are grateful for these offerings they remind everyone to keep up the good work. It is necessary to keep a steady flow each week coming in to entertain the service people.

Because of the many requests a pool table has been purchased and the committee has been trying to make arrangements to move it from a second story building to the U.S.O. The pool table has to be taken apart to be moved and special tools are needed for this purpose.

The front lawn of the U.S.O. is in a very run down state and the committee has been endeavoring to get it landscaped.

Volunteers in these activities are needed.

Quail Season Suggestions Are Asked by State

At a future meeting of the Fish and Game Commission, recommendations will be made on areas to be opened or closed to pheasant and quail hunting by special order during the coming season. Individuals and sportsmen's clubs throughout the state having suggestions to make on this matter are requested to submit them in writing to the executive secretary of the commission, George P. Miller, at San Francisco.

Game biologists of the Division of Fish and Game are now making a survey of pheasant and quail conditions, and will submit their findings to the commission.

Union Provides Telephone Calls For Service Men

Members of Local Union 100 of the United States Rubber Plant have been entertaining the soldiers at the Army Hospital in Torrance with the unique idea of each month selecting three soldiers whose birthdays are the nearest and giving them the opportunity of calling by phone anyone they choose to call within the United States.

This plan has become one of the highlights of the entertainment program and aside from the fact it affords the boys a source of comfort, it is looked forward to each month with wild guesses as to who the next three will be given the chance to call.

State Guard Need During War Is Told

By BRIG. GEN. RAY W. HAYS, Adjutant General, State of California

At no time in the history of California has there been such a vital need for a thoroughly disciplined, well equipped and properly trained force of state troops. These troops, now designated as the California State Guard, must of necessity be composed of men in civilian life who are willing to devote a few hours a week for military training.

Units of the State Guard are "pinch-hitting" for the California National Guard now serving the nation magnificently on battlefields all over the world. Men enlisting in the State Guard do so for the period of this emergency or until our National Guard units come "home."

And what is this emergency which high military authorities think is so great that it should induce every able-bodied citizen to volunteer for service in these home defense groups for the duration?

Our enemy in the Pacific is tricky, inhuman and sly. As our Army and Navy push him further and further back in his corner there is increasing possibility that he will attempt a "vengeance" raid of some kind on California. Just how and when and where such a blow would be struck we can only conjecture and plan for. The idea would be to bolster their own home morale through creating panic here and to do as much damage as possible.

Christmas Gift Wrapping Policy Of W.P.B. Given

With Christmas buying and mailing season in the offing and the shortage of paper still evident, the Torrance Chamber of Commerce is distributing in Torrance the Board's ruling on Christmas wrapping as interpreted by the Chamber.

Harry B. Lewis, executive secretary of the Torrance Chamber, said that the W.P.B. had prepared the following interpretation on Christmas gift wrapping:

Question: How does the War Production Board's declaration of policy on wrapping and packaging materials apply to Christmas gift wrapping?

Answer: The policy asks for the elimination of all unnecessary wrapping of packages by retailers. This applies to gift wrapping as well as ordinary wrapping. Merchants with stocks of gift wrappings on hand may use them instead of their regular wrappings, so that such stocks will not be idle or wasted, but they should use these gift wrappings sparingly. Double wrapping, paper stuffing, inner wrapping and decorative effects which use more paper than absolutely necessary should be avoided. It is important that salespeople be instructed to sell the idea that lavish Christmas wrappings are in poor taste during war-time.

COOKING GUIDE: A prisoner of war cooking guide was recently published by American Red Cross and now is being shipped in bulk to Geneva for distribution to groups of 20 to 35 men in prison camps in Europe where Americans are held.

TOWNSENDITES WILL GATHER HERE SEPT. 3

Townsendites from all over Southern California will gather in Torrance park on Sunday, Sept. 3, for a big mass meeting and all day picnic.

The affair is being sponsored by the Townsend people of the 17th Congressional district, and Dr. Francis E. Townsend, founder of the Townsend movement, will be the principal speaker. There also will be other speakers and an interesting program.

Participants are urged to bring lunch baskets, cups and sugar. Coffee and cream will be furnished free.

Special bus transportation is being provided for Los Angeles

'A' Books Must Be Renewed Before September 21

Holders of "A" gasoline ration books in all parts of the country except the eastern seaboard must apply for renewals before Sept. 21, when current books expire, F. W. Daniels, chief clerk, Torrance War Price and Ration Board, said yesterday.

The OPA said renewals would get under way "in late August," with the exact dates and methods of application being determined by OPA district directors.

Books will continue the eight-gallon-a-month allowance, but will have four-gallon stamps in place of the present three-gallon stamps.

Townsendites. It will be Dr. Townsend's first appearance before the whole group in some time.

Local Democratic Club Will be Organized Aug. 23

Formation of a local Democratic club will take place in a meeting to be held in the C.I.O. hall, 1316 Border Ave., on Aug. 23 at 8 p.m. Kenneth Beight, local Democratic committeeman for the 68th Assembly district and the 17th Congressional district, and president of Local 1414, C.I.O., is calling the meeting and will preside.

Democrats from Torrance, the Shoestring and Keystone are being asked to attend. The club will apply for a charter, it was said.

True humility is not an abject, groveling, self-despising spirit; it is but a right estimate of ourselves as God sees us.—Tryon Edwards.

Diet of U.S. War Prisoners Varied

To vary the diet of American prisoners of war in European camps, the American Red Cross is now packing six different standard weekly food packages, it was learned here this week from national headquarters.

The food parcel now contains ascorbic acid, biscuits, cheese, chocolate bars, cigarettes, coffee, corned beef, chopped ham, liver pate, dried milk, oleomargarine, prunes, salmon, soap and sugar. The variations will not reduce the essential food values, but will include a different kind

of biscuit, tuna instead of salmon, honey for jam, meat and vegetable stew in lieu of chopped ham, etc.

'Just a Little' Lumber Appeals Go Unfilled

Hundreds of Southerners who swarmed to local WPB and FHA offices during the past week in search of priorities on lumber for "just a little repair work," found that the war has moved a little closer to our home shores.

Los Angeles FHA offices report that the more than 300 calls flooding in each day since new lumber controls went into effect on Aug. 1, only half a dozen or so qualify for priorities.

Lumber is available, however, without priorities for non-emergency repair, Stanley Mark, Southland WPB priorities chief, explained, but it's like gasoline—maybe your dealer has some left, maybe he hasn't. His allotment for that purpose during the next three months is so small that it amounts to only a few boards per day. After that is gone, he has to hang out the "Sorry, No More Today" sign.

In general, Mark continued, priorities on lumber for home repair will be limited to damage caused by fire, flood, tornado, earthquake, storm or similar catastrophe—and then only if the damage makes the dwelling unfit for continued occupancy.

GLAZED CHINTZ To wash or not to wash, glazed chintz—select an inconspicuous spot on the chintz and rub briskly with a clean, damp cloth. Allow spot to dry. If the glaze comes off and the material is limp, then it is not a durable glaze and the fabric will not wash.
